

Faculty Senate Resolution 99-12

Whereas, LSU Policy Statement 29, Environment Control in the Classroom, restricts eating, smoking, drinking, and the presence of animals in classroom areas, and

Whereas, there are courses in which eating, drinking, and use of animal are necessary for teaching and learning; that is, eating or drinking may be an integral part of the evaluation and discussion of food preparation, nutritional value, processing, properties, or safety,

Therefore, be it resolved that PS-29 be amended as indicated by the **bold underlined** print in the following paragraph,

“it is the University’s intent to provide in all teaching facilities an environment conducive to study and learning. Any situation or deportment which disrupts the learning process is prohibited. Eating, drinking, and smoke are prohibited at all times in teaching areas, **except where food or drink is considered an integral part of the course structure by the instructor**. All animals, except seeing-eye/**hearing-for-deaf** dogs **and animals that are provided by the instructor as instructional resources** are prohibited in teaching facilities.”
